To make money, she agreed to work as a night watchman at Fazbear Entertainment, despite bing about the murders. The legendary Freddy Fazbear Pizza Shop is constantly changing night security staff. Spooky stories are constantly told every day, it has become a legend in the city. However, they quickly closed the pizzeria and founded Fazbear Entertainment. Five nights on Freddy's HW for Android Bad rumors are constantly targeting Fazbear Entertainment. The independent publisher even developed a game based on mysterious events in his former pizzeria. Fazbear Entertainment commissioned the development of a virtual reality game called Freddy Fazbear Virtual Experience, to justify that what happened in their company was just, without rumors. However, 16 types of games, which were reportedly recorded by one of the developers, showed the opposite. Can you survive after the night shift as a security guard? Click the New Game button to start your not-so-memorable experience at Five Night's at Freddy's: HW. You are a night watchman in a room that includes a camera monitor, a newspaper, a cup of coffee and a desk phone. The landline phone repeats the previous guard's message and tells you what to do at night. In the end, he said everything would be fine. But in reality, nothing's right at all. Five Night's at Freddy's: HW scares you in a very special way. Unlike grandma, you can not move, you can just sit at the table and hope that animatronics will not find you. Watch the camera around the clock, you can see in which room the animatronics are located. If they get close to your room, try turning on the switch, playing music, or throwing something on the table to distract them. Do not forget to close the door if you do not want to become one of the night guards who mysteriously disappear. Five nights in Freddy's HW APK Download Your task is to survive from 12:00 a.m. to 6:00 a.m., which actually takes about 4 minutes. Trust me, that's the longest four minutes of your life. You need to make sure that the energy of the building is not exhausted. If the power is cut, your fate is over. The lights and camera are off, the whole door opens automatically. Nothing separates you from these monsters. Five Night's at Freddy's: HW APK Download OBB Download Five Night's at Freddy's: HW synthesizes all the content of previous episodes. You'll meet backs of animatronics like Freddy Fazbear, Bonnie, Chica and Foxy. Some objects you can interact with with your camera: You track the entire building's activity through an old screen, noise, and only two black-and-white colors. With the building plan below, you can open the appropriate cameras. However, some cameras are damaged, you can not see the situation there. Attention! Lights: Turn on two switches to help you see both sides of the corridor while disturbing the animatronics. However, you should not turn on the lights for too long, otherwise the energy will be exhausted before dawn. Door: As a lamp, the door opens automatically if the building loses power. Newspapers, coffee cups: You can pick it up and throw it away to avert animatronics. Graphics Look Scary Five Night's at Freddy's: HW is designed with 3D graphics with two main colors, white and black. The graphics and images are sharp and quite realistic. You feel like you're in the horror of the '80s. I was surprised and dropped my phone when Freddy Fazbear suddenly appeared in the middle of the screen with vibrations. So I actually help wanted on my Oculus Quest, but I can barely play because the atmosphere and detail is just too scary for me, but ever since y'all came out with a mobile version of the VR game, it got less scary and I can still experience the game, but without me as scared as usual. This is a new game and already the game is really good. With more updates to come, the graphics (lighting, atmospheric vibration with it) may be better, for example, when I got to the next night in the parts and services that is Freddy, animatronic was a bit pixelated then Bonnie in advance. And I'm just witnessing 1 error which is the difficulty in picking up the object. When you pick up an object, it says you can swipe up to throw the object, but almost every time I swipe up to throw it and the object in one of the trash cans, it would always drip instead and I'd get Jumpscare. This is the only annoying and buggy part with the game. The last thing I want to say is an unnecessary glitch with a blue grid around various objects along with a scary sound with it. In the lobby and Fnaf 1 (not in night time fhoe) this would happen, and when you are a beginner in the game, you will not know what the sound is, because most of the time you can not see the blue grid and you get really freaky. Apk Mirror 1: : Download APK Five Nights at Freddy's: HW Reviews Extremely Fun, But Problems There are many glitches mostly with Baby Closet and Stuffed Kids. Time takes a long time and the flashlight is a way of little energy. Also, the Mangle level does not restart after death, you need to exit the application to continue. But otherwise, 9/10 levels Where are all the other steel wave levels? Half the mini games are missing! And how is it that there are no tapes and coins? The only time I see a glitch is when I'm doing a Pizza Party. How do we get an ending where he locks us up on his cell phone? I really like this game, but. Ok, so there are not as many options as there is in PC and VR. And I think the controls must be less objectionable, and that there are tapes, coins, and I do not even know if the glitchtrap is in it, but I doubt it is. I know you're probably busy working with Security Beach, but I think you should have more options and stuff. So please make these changes, thank you for reading. FNAF help wanted on MOBILE!!!!!! It's on your phone now. ITS amazing Actually really good but... While it's a really good port (incredibly well optimized), it misses many levels from console and PC versions, as well as Halloween DLC. Hopefully there is a plan to add that in the future because the game feels unfinished at the moment. Also, opening the menu is very difficult to navigate. Go.
